SUMMARY

Forward-thinking Full-Stack Developer with 10+ years of experience delivering scalable, high-performance web applications. Skilled in React, Next.js, Node.js, Laravel, and Docker, with hands-on expertise in integrating modern tools and APIs to streamline development workflows. Known for transforming innovative concepts into reliable, production-ready software while leading teams and managing projects with precision across distributed global environments.

EXPERIENCE

Full-Stack Developer

UPWORK

2011 – Present, Remote

- Deliver full-stack solutions for international clients.
- Develop scalable SaaS, eCommerce, and CMS projects optimized for performance, security, and SEO using the React, Node.js, and Laravel ecosystems.
- Modernize development workflows by adopting cutting-edge tools, including VS Code DevContainers and Docker Compose, to boost delivery speed across distributed teams.
- Automate deployment pipelines and containerize production environments using GitLab CI/CD and Docker for consistency.
- Lead small development teams and mentor junior developers, introducing workflow automation and modern best practices.

Owner & Lead Developer

AXESTORE ONLINE

2019 – Present

- Founded and currently manage an end-to-end eCommerce brand.
- Responsible for full-stack development, technical SEO optimization, and digital marketing strategies to drive growth.

Country Manager (Kenya)

GROWTHBOND.CO

2018 – 2020

- Partnered with the International Trade Centre (ITC) to deliver social media advertising training for refugees in Kakuma.
- Led curriculum design, stakeholder coordination, and mentorship programs targeted at digital inclusion.

Operations Manager

Weddings in Winnipeg

2012 – 2016

- Oversaw web management and optimized digital workflow efficiency for a Canadian media company.

Data Management & Research

GiveDirectly

2011
